

## ANELTEC BENTONITE WATERBAR

### PRODUCT DESCRIPTION

**ANELTEC Bentonite Waterbar** is used for the watertight sealing of concrete casting joints.

In contact with water, it increases its volume, filling every crack and cavity, and thus creating a perfect seal to the passage of water.

It is available in two sections, and supplied on request with a fixing net.

### AVAILABLE SIZES

#### Bentonite Waterstop 20x15 mm

Wire Mesh 20x15 mm

#### Bentonite Waterstop 20x25 mm

Wire Mesh 20x25 mm
